

The graphics in the game look really cool (but may be a little too close to the original space invaders game). You should figure out how to make the left and right keys move smoothly if possible. The game would be more fun and challenging to play if the enemies moved faster. I'm loving the color-changing confetti at the end though. :)

I can't do anything about the keys. I want to be able to win the game so I will not increase the speed. Thanks for the compliments on the confetti and graphics.

I liked how the game got more challenging as I continued playing. The graphics were cool. Maybe try adding an instruction popup in the beginning so you know how to play.

Thanks for the compliments. I will try the instruction popup, it is a good idea. Many people do not understand the controls and often crash the game by holding down the keys.
